## **Beware Of Darkness**

Close your eyes deep in the 13th dark night I send out a prayer to you Close your eyes you can see the 13th Bleeding light I send out prayer to you

Eyes that shine from deep inside Never fade away Eyes that shine from in my mind that's into your heart And now that it's shining through the way

And you can see anymore That's into my heart Don't let it stop never fade away I can feel you anymore
