

Even private jets can't get you to me
Running out of time got me running on E, eh
Yeah, I'm running outta air
I'm running outta air without you
2021 and we still on freeze
I ain't giving up girl I rep the team still
I'm running out of air
I'm running out of air without you

Stuck inside my head, every time you go
I've been feelin' dead
With all the back and forth
Baby, I'm a wreck
Until you come around pick me up
Don't wanna test my luck
But you got me on go
Might start packing up, Ubers at the door
I just wanna see you
Smiling been forever since
We shared the same air

Text from a plane, yeah
What you doin' today? yeah
I just need you here with me, baby
Oh, I'm running out of air without you
I'm running out of air without you

Got my love on lock, threw away the key
You don't need nobody
If you feel it with me girl
I'm running out of air
But I don't even care about that
Without you I'm a mess
That's a guarantee
Reading through our texts
Just so I can feel something
I'm running out of air
I'm running out of air without you

Stuck inside my head, every time you go
I've been feelin' dead
With all the back and forth
Baby, I'm a wreck
Until you come around pick me up
Don't wanna test my luck
But you got me on go
Might start packing up, Ubers at the door
I just wanna see you
Smiling been forever since
We shared the same air

Text from a plane, yeah
What you doin' today? yeah
I just need you here with me, baby
Oh, I'm running out of air without you
I'm running out of air without you
