

# Supermodel

Bambee

I wanna be a supermodel, superstar  
And posing on the covers  
Here and near and far

I wanna go around the world  
In diamonds and pearls  
And make the boys fall apart

Remember how we used to dress like fools  
Imagined how it was with loads to choose

I'm taking off in high-heels baby  
London, Paris, New York-name it  
I'm waking up in a bed of roses  
Dreaming my day away

I wanna be a supermodel, superstar  
And posing on the covers  
Here and near and far

There is so much for the eyes in Candyland  
So tell me what to do  
Your wish is my command

I'm taking off in high-heels baby  
London, Paris, New York-name it  
I'm waking up in a bed of roses  
Dreaming my day away

I wanna be a supermodel, superstar  
And posing on the covers  
Here and near and far

I wanna be a supermodel, superstar  
And posing on the covers  
Here and near and far

I wanna be a supermodel, superstar  
And posing on the covers  
Here and near and far

I wanna be a supermodel, superstar  
And posing on the covers  
Here and near and far
