Bambie Thug

You want a weapon and I'm mass destructive  
Crossbow killer Cupid corrupted  
I set the rhythm and the time and the pace  
Here I go 'bout to blow, baby, up in your face

Headbang, headbang  
Whiplash, headbang  
Push it harder 'til you hit that  
Headbang, headbang  
Whiplash, headbang  
Push it harder 'til you hit that

Headbang, headbang  
Whiplash, headbang  
Push it harder 'til you hit that  
Headbang, headbang  
Whiplash, headbang  
Push it harder 'til you hit that

I'm Medusa, let me seduce your snake  
And push your big red button, baby, detonate  
I'll put the beat in your bass, babe, you just gotta ask  
Have you coming like a comet, baby, quicker than Flash

Headbang, headbang  
Whiplash, headbang  
Push it harder 'til you hit that  
Headbang, headbang  
Whiplash, headbang  
Push it harder 'til you hit that

Headbang, headbang  
Whiplash, headbang  
Push it harder 'til you hit that  
Headbang, headbang  
Whiplash, headbang  
Push it harder 'til you hit that

Push it harder 'til you hit that  
Push it harder 'til you hit that  
That, that, that, that (headbang)  
That, that, that, that (oh, come on)  
That, that, that, that  
Push it harder 'til you hit that

Head gonna hit real hard  
Look like glitter and stars  
Seems so sweet and sharp  
Shit collides then sparks  
Feels all better in the dark  
Black tattoos on your arms  
Black like the hole in your heart  
Black hole fill it in fast  
Drive like the double and dash  
Skrtrt in the car and park

Lick, lick, lick, lick, licky, licky, licky

Stick, stick, stick, stick, sticky, sticky, sticky  
Trick, trick, watch me trick, I'm so tricky, tricky  
Kiss, kiss on my lips, I'm so pretty, pretty

Come and have a go if you think you're hard enough  
Let me have a go, babe, I think you're hard enough
