

Hex So Heavy

Bambie Thug

Coming in with a hex so heavy
A curse cast watch a witch get petty
You're a blood clot cut you clean confetti
Ima machine Moschino Machete
Coming in with a hex so heavy
A curse cast watch a witch get petty
Laser sight yeah I aim it steady
Ima machine Moschino Machete

From the dry dirt make it sting
Click click click clip your wings
Few of my favourite things
Laughing when I hear you sing
Fake fire fading fast
Mimic me - at least have class
Two left feet can't keep that beat
Please someone teach this bitch to dance
Teach this bitch to serve
Where'd you get the fucking nerve
You're the dirt, dirdirdirt maggot
Bitch I'm from another planet
I'm the worm up in your brain
Call me by my fucking name
You're the ash and I'm the flame
Call me by my fucking name

Coming in with a hex so heavy
A curse cast watch a witch get petty
You're a blood clot cut you clean confetti
Ima machine Moschino Machete
Coming in with a hex so heavy
A curse cast watch a witch get petty
Laser sight yeah I aim it steady
Ima machine Moschino Machete

Why you so obsessed with me
Acting like you came up with the motherfucking recipe
Aaahhh
Bow down bitch
Committed treason
Wasted oxygen you breathing
Out of date when I'm in season
Haunt you till your heart stops beating
Yeah I heard it bitch
You trying to get in my way
Telling people not to work with Bambie thug (you the plague)
Pretty funny how they all still fucking eating me up
I got revenge on my tongue and I got some diss in my cup
I got bruises on my mind but that ain't taking no toll on me
I know I'm on your mind with all the shit that you stole from me
Snake say what you like - but you 'don't even know me'
I'm the muse that you use, pick pocket you owe me

Coming in with a hex so heavy
A curse cast watch a witch get petty
You're a blood clot cut you clean confetti
Ima machine Moschino Machete

Coming in with a hex so heavy
