

# HIEROPHANT

Bambie Thug

He ain't my sugar daddy, he my Hierophant  
He gimme yummy, give me everything I want  
I ask for honey and he puts it on my tongue  
He loves to serve me, like we're in a restaurant  
He got that big, bad, bossy appetite  
He like to Ice it right before I take a bite  
He call me naughty and I call him Mr. Right  
He love to make up so I always start a fight

He likes to hit it, so I always misbehave  
Play the demon let him burn me with the fire and the sage  
He make me whistle like a birdie in a cage  
Call him master but I know that when I whip it he my slave

It's my love potion I know he in love with me  
The devotion he can't get enough of me

He ain't my sugar daddy, he my Hierophant  
He gimme yummy, give me everything I want  
I ask for honey and he puts it on my tongue  
He loves to serve me, like we're in a restaurant  
He got that big, bad, bossy appetite  
He like to Ice it right before I take a bite  
He call me naughty and I call him Mr. Right  
He love to make up so I always start a fight

I'm Cleopatra and he tastes like caramel  
Seeing double, toil and trouble and I'm popping parallel  
This isn't nothing I could summon with a spell  
Isn't hoodoo, isn't voodoo, isn't wishes in a well

It's my love potion I know he in love with me  
(Treat me like a centrepiece)  
The devotion he can't get enough of me

He ain't my sugar daddy, he my Hierophant  
He gimme yummy, give me everything I want  
I ask for honey and he puts it on my tongue  
He loves to serve me, like we're in a restaurant  
He got that big, bad, bossy appetite  
He like to Ice it right before I take a bite  
He call me naughty and I call him Mr. Right  
He love to make up so I always start a fight

I know he in love with me  
I know he in love with me
