

Love Bites

Bambie Thug

Love bites
Love bruised
A love vacancy I wasted on you

Yeah love bites
And love chews
It spits you out all twisted up
A myth and a muse

It's a blood red sky
A kiss of the damned
Play the wrong hand
No lovers left alive
Mourning moves in my mind
Babe what you said
Raised from the dead
My heart opened wide

What we did in the shadows
It felt so innocent
The underworlds unravelled
I swore I let the right one in
But love bites again

Love bites
Love breaks
Love steals from you
It loves to take
My cold love, coloured blue
If I could take just one more bite
One sweet taste of you

It's a blood red sky
Play in the dark
Playing with a heart
And praying you'll survive
Move my mind
Babe what you said
Playing in my head
I'm bleeding out alive

What we did in the shadows
Baby, I was innocent
The underworlds unravelled
Could I let you in again?
I'm innocent, I'm innocent

(Tell me you want my blood back
The beastly blow, the impact
Opening the doors
Immortally, I'm always yours)

What we did in the shadows
It felt so innocent
The underworlds unravelled
I swore I let the right one in
But love bites again

(Tell me you want my blood back
The beastly blow, the impact
Opening the doors
Immortally, I'm always yours)
