

Merry Christmas Baby

Bambie Thug

Last Christmas, I gave you my blood
Promised me forever in the web that you spun
But this year, I know that forever's done
Yeah, our seasons came and it passed
Fires we made, faded so fast
Too much damage left to unwrap the wounds

But all I wanted, baby, was you
Light in the dark, pullin' me through
Do all these nights mean nothing to you at all?

Merry Christmas, baby
I pray next year that maybe
I forget how you played me
After what we went through
I lost my mind for you
Merry Christmas, baby
I pray next year that maybe
I forget how you played me
I saw a side of you
The other side of you
How could you, could you?

Mistletoe, I'm missing you
Ink on paper, words untrue
You forgot to ask me
Blame me, drag me
If you see me one day
Babe, just walk right past me

'Cause all I wanted, baby, was you
Light in the dark, pullin' me through
I wonder if I ever knew you at all

Merry Christmas, baby
I pray next year that maybe
I forget how you played me
After what we went through
I lost my mind for you
Merry Christmas, baby
I pray next year that maybe
I forget how you played me
I saw a side of you
The other side of you
How could you, could you?

Merry Christmas, babe
So long the plans we made
Actions, changes, dust to dust
Nothing's fair in broken trust
Baby, it's so exhausting
Feelings are getting crusty
Cross your heart and double cross me
Looks like you just loved the lust, but

Merry Christmas, babe (babe, babe)
Merry Christmas, babe (babe, babe)

Merry Christmas, babe (babe, babe)
Merry Christmas, baby (babe, babe)
