Psilocybin let the vibe in

I heard Jesus drank a potion  
Walked on water like the sand  
Alice sleeping in the heathers  
Found herself in wonderland  
What's the secret is it hidden in the power of the plants?  
If I take a sip will paradise, will it appear in my hands?

Psilocybin let the vibe in

I live in 5D I like to hallucinate sacred geometry  
Heavens pink and wide awake  
I touched a waterfall, heard a voice of many colours  
I healed my wounds on a battle field of many lovers

I'm seeing sounds I can taste it when my brains exploding  
I'm on that thought food I can sense my soul unfolding  
I pop a bubble and I overturn the parallel  
The clouds are crying and I'm flying but I'm standing still

Psilocybin let the vibe in (it's insane)
