

Bullet

Bambix

So many times you've broken down
You tried to laugh but were the clown
Of a bankrupt circus moving onward
They must have seen it in your eyes
That the anger and the spite
Flushed you little life away
And there's fighting in the streets. it seems that's all you ever need
To prove you're in control.
The lights will soon go down on you.
The end is near, what can you do?
When the stage is set right here for you

Gotta keep that bullet down. bushranger

Charlton heston on tv
Promotes the guns bigotry
You eat their words cuz you're hungry for more
But that bullet in your chest
Will make sure that you can rest
Long enough to start thinking

Gotta keep that bullet down. bushranger
