

## Argos

Bamboo

I cried for days  
Wasn't sure how I got to be here  
Brought my knees  
Wasn't the fallacy that's inside of me  
Peace I give you, hey

And make him pay  
Left throbin' on the outside, time  
You'll play your game  
That you wasted for no reason  
Afar from reason  
Show me, show me, show me

You say I don't belong  
You say we don't belong

Well duty bounds me

On the cover of a magazine  
The girl of your dreams  
My hero's weapon is what you will seek  
Don't be all you can be  
You can

Save me now, but not today
