

In Shadow

Bamboo

When I come home tonight
I wait up by the phone
I'm waiting for that answer
I can't do this no more

Last night of the year
Will I finally see the light
Lay defeated on the feet of shadow and doubt
Strung along like a puppet of midnight

Down down down we go
Down down down we go
Down down down we go
Down down down we go

Change the locks on the door
You're not invited anymore
I wish today wasn't my birthday
I can't do this no more

Oohh life
Ohhh life
Ohhh life
Oh life
