## I Can't Let You Go

## **Bananarama**

Feels like I've been sleeping For a thousand years Secrets I've been keeping Fill an ocean with tears

But I've found the answer To what I'm searching for 'Cos I felt so empty Until you touched my soul

I can't let you go
Now that you're mine
I can't let you go
I want you for all time

Filled with such confusion I was losing my mind Fell for love's illusion Time after time

Any my life without you Sends a chill right through my heart But you made love easy From the start

I can't let you go
Now that you're mine
I can't let you go
I want you for all time

I can't let you go
Now that you're mine
I can't let you go
I want you for all time

But I've found the answer To what I'm searching for 'Cos I felt so empty Until you touched my soul

I can't let you go
Now that you're mine
I can't let you go
I want you for all time

I can't let you go
Now that you're mine
I can't let you go
I want you for all time
