

I Love the Way

Bananarama

I love the way [x7]

It's just an hour ago
I overheard your name
Feels like we've known each other for a lifetime

The stars will always shine
The sun will rise again
But for tonight we'll feel there's no tomorrow

[Chorus]
I love the way you make me feel
Like dancing on the water
I love the way the two of us
Are more than one or other

And when you're holding me
Nowhere to draw the line
It's on a night like this you fall forever

Dancing

[Chorus]

Forever
Forever
