

# I Want You Back

Bananarama

The room has suddenly grown cold  
And outside in the street it's raining  
You packed your bags and said goodbye  
You took my heart without explaining

How could you go  
How could you go  
We had a love most people never know  
Ooh stop before you break my heart

I want you back, don't care what I have to do  
I want you back back back  
I want you back, gotta get it through to you  
I want you back back back

If I can make you see  
Only you can fill the need in me  
If you walk away  
You'll regret it some day  
Please stay

This room is full of memories and  
Shadows of the past remind me  
Of all the love I gave in vain and  
All the hurt I feel inside me

I want you back  
I want you back  
We had a love most people never know  
Ooh stop before you break my heart

I want you back, don't care what I have to do  
I want you back back back  
I want you back, gotta get it through to you  
I want you back back back

If I can make you see  
Only you can fill the need in me  
If you walk away  
You'll regret it some day  
Please stay

I want you back  
I, I want you back

I want you back  
I, I want you  
I want you back  
We had a love most people never know  
Ooh stop before you break my heart

I want you back, don't care what I have to do  
I want you back back back  
I want you back, gotta get it through to you  
I want you back back back

If I can make you see

Only you can fill the need in me  
If you walk away  
You'll regret it some day  
Please stay

I want you back, don't care what I have to do  
I want you back back back  
I want you back, gotta get it through to you  
I want you back back back
