

Aftermath

Band of Horses

I brought you back
Lost myself and you in the aftermath
Then what's worse than that?
That was falling asleep dead in the bath

Then the morning brought a scare
Holding a child falling down the stairs
Say, what's that over there?
It's the baby and me tumbling down the stairs

If I could say to you
It's been awhile, let's spend the afternoon

Ooh, ahh...

I got you back
I lost myself in the aftermath
Fought me through panic attacks
Cut me down, I'm suffering the wrath

And I don't know how to say things
When I'm caught in the aftermath
Aftermath, aftermath
Aftermath, aftermath, aftermath...

All of my love, all my love to you
Oh, my darling, my darling, my love...

I'm caught in the aftermath
