

## In The Hard Times

Band of Horses

If you think I won't leave  
The violence and public scenes that you bring  
It's nothing new

Everything has changed, wait up wait another day  
You'll be coming around again, shameful heavy-hearted  
Reasons not to give in, remembering now and then

And it don't make sense, but it's the only choice left  
'Cause you deserted me in the hard times, yeah, you  
You deserted me in the hard times

Home is here now, it's too late to turn it around  
Heard you were out on the town  
Everybody's your buddy now, hear 'em talking so loud  
I just turned away

You'll come home soon  
While I'm alone, everybody loves you  
But you deserted me in the hard times, yeah, you  
You deserted me in the hard times

It's nothing new, there's nothing I could do  
'Cause you deserted me in the times, yeah, you  
You deserted me in the hard times  
You deserted me, you deserted me
