

Alone

Bandit Gang Marco

Treat on kiss, I've been hold you down
Blood, sweat and tears, never thought that
It would come to this
But all of a sudden baby, you changed the way
I got with you, whatever you say baby
This' what I'll do
Even when my mama said don't fuck with you
I still did it baby, cause I love you
Is it her, when she touch you like I did
Is it her, making love all night baby
Now baby is it her
Or did you just wanted something new?
Why you can't be real with me?
Just tell me the truth
You be fucking round on me, with her leaving me lonely
Damn I don't deserve it
Why I let him do me like this
It's some bullshit, I tried to move on
But I can't leave, can't leave him alone
No, no, no, no, no, no
I tried to move on
But I can't leave him

I know you hear me crying,
And I know sorry don't work
But baby this my last time
And it's past do you forgive me baby?
I've shed so many tears lately
I know that I'm to blame but baby
Please don't leave me, I need you in my life
He ain't going nowhere, you get the best of me
And I know you hurt my soul baby I'm sorry
Baby I'm just gonna get it right
I'm just gonna let it ride

You be fucking round on me, with her leaving me lonely
Damn I don't deserve it
Why I let him do me like this
It's some bullshit, I tried to move on
But I can't leave, can't leave him alone
Alone, alone, alone, alone alone, alone, alone
I tried to move on
But I can't leave him alone

Baby I'm sorry that my heart wasn't on the same page
I didn't play it by the rules I did it my way
And now you're gone, gone, gone
Baby you've left me alone, alone, alone
And now I'm singing these love songs
It's like I'm PLeasure P, I did you wrong
But you still my baby
I'm sitting here, going crazy

He ain't going nowhere, you get the best of me
And I know you hurt my soul baby I'm sorry
Baby I'm just gonna get it right
I'm just gonna let it ride,

I'm just gonna let it ride

You be fucking round on me, with her leaving me lonely

Damn I don't deserve it

Why I let him do me like this

It's some bullshit, I tried to move on

But I can't leave, can't leave him alone

No, no, no, no, no, no

I tried to move on

But I can't leave him, why.
