

What We Lost

Bane's World

(It's kinda hard to move on and get away from these thoughts)

I keep looking for ways to get by
But it's kind of hard to move on and get away from these thoughts
And I say I'm okay but I'm lying
All the lines that we crossed
And the time that we lost

Glaciers on me caught up in a snowstorm, I be out on Wall Street making deals with coke boys (ay)
And they making no noise, ooh she didn't choose me, guess she made the wrong choice
Ooh, I saw you drinking out a tall boy, I made you a seashell necklace by the seashore
They say you doin'?'
I'm still headed to the top, I just took a little detour

I keep looking for ways to get by but it's kind of hard to move on
And get away from these thoughts (get away, get away, get away, yeah)
And I say I'm okay but I'm lying
All the lines that we crossed
And the time that we lost

Back when we would play-- back when we would play the role
I don't wanna play the role
I was a toy soldier, and you were just a babydoll
Time for us to take control
Saw you just went on a trip, where was my permission slip?
Guess you didn't need a chaperone
Grab me by the hand, tell me that you understand and you're never ever letting go

I keep looking for ways to get by, but
It's kind of hard to move on and get away from these thoughts (get away, get away, get away, yeah)
And I say I'm okay but I'm lying
Now I'm takin' these drugs, tryna find what we lost

(What's up?)
