

Legend of the Night

Bang Camaro

We hide behind your bed
Watch your mother close the door
We fill your needy head
With the dreams that demand more

Give yourself away to us
We are the legend of the night
Close your eyes and listen, child
We are the demons of the right to rock

We race into the streets
Our power only grows
Come all forgotten ones
How this ends, no one knows

Give yourself away to us
We are the legend of the night
Close your eyes and listen, child
We are the demons of the right to rock
