

# There Was A Whisper

Bang Gang

I feel so alone  
I feel so cold  
I wan't to fly  
Take off to the sky  
It's so cold  
It's so cold  
It's so cold

There was a chill  
There was a sound  
There was a whisper  
That I found  
It went along  
Searching  
It will return while I stay

I feel so alone  
I feel so cold  
I wan't to fly  
Take off to the sky  
It's so cold  
It's so cold  
It's so cold

There was a chill  
There was a sound  
There was a whisper  
That I found  
It went along  
Searching  
It will return while I stay

There was a chill  
There was a sound  
There was a whisper  
That I found  
It went along  
Wandering  
It will return while I stay  
Searching

There was a chill  
There was a sound  
There was a whisper  
That I found  
It went along  
Searching  
It will return while I stay

There was a chill  
There was a sound  
There was a whisper  
That I found  
It went along  
Wandering  
It will return while I stay  
Searching
