

Hyperspace

Bang

let me take you on a journey of a thousand miles
I can show you all the good things only i can drive you wild
leave the world so far behind and find out what is missing
close the door but open your mind all you have to do is listen

follow me
I can show you all the good things in your life
follow me
and we'll see all the stars burning bright

cruising at the speed of light we can be there in an hour
see the stars all burning bright only i possess the power
no one else can take you there and give you what you're missing
a quiet place that we can share all you have to do is listen

follow me
I can show you all the good things in your life
follow me
and we'll see all the stars burning bright

let me take you on a journey of a thousand miles
I can show you all the good things only I can drive you wild
leave the world so far behind and find out what is missing
close the door but open your mind all you have to do is listen
