

Lost In Space

Bang

(Show me to find my way back home)
(I'm not gonna make it on my own)

Once again I ask you why
Same old question, same old lie
Gentle kiss that barely touched
The moment shared you with
More than friendship I could tell

Feel myself just slip away
Try to run to yesterday

Show me to find my way back home
I'm not gonna make it on my own
'Cause I'm lost in space
Give me the strength to carry on
I don't wanna be here all alone
'Cause I'm lost in space

(Show me to find my way back home)
(I'm not gonna make it on my own)

Past the point of no return
One more lesson that I learned
Close my eyes and start to pray
The love for you will die
Can you see me start to cry

Feel the tears upon my face
As our love just fades away
Feel myself just slip away
Try to run to yesterday

Show me to find my way back home
I'm not gonna make it on my own
'Cause I'm lost in space
Give me the strength to carry on
I don't wanna be here all alone
'Cause I'm lost in space
