

Single by Choice

The Bangles

Single by choice
Never marry, never ever divorce
Listen to the solitary voice
Tell you I'm single by choice
Single by choice
Never marry, never ever divorce
Listen to the solitary voice
Tell you I'm single by choice
I know what you're thinking
She can't be complete
'Til the right kind of man
Come sweep her off her feet
Well I've been there before
Times four or times five
With the right kind of man
Barely made it out alive
Single by choice
Never marry, never ever divorce
Listen to the solitary voice
Tell you I'm single by choice
Alone but not lonely
Never marry, never ever divorce
Listen to the solitary voice
Tell you I'm single by choice
I know what you're thinking
She can't be complete
'Til the right kind of man
Come sweep her off her feet
Well I've been there before
Times four or times five
With the right kind of man
Got love in my day
And I don't waste one moment
Wishing it awya

Single by choice, single by choice
Single by choice, single by choice

Single by choice
Never marry, never ever divorce
Listen to the solitary voice
Tell you I'm single by choice

Single by choice, single by choice
Single by choice, single by choice
