

Fuck Love

Bankrol Hayden

What?

Make a love song, like about us, like long distance

I think it's best that we cut ties

The way I'm livin', probably never see a love life

Ain't nobody gonna love me from the inside

All these love scars on me, can't apologize

You always told me I was wrong, we never get along

I've been on the road and I ain't ever coming home

Ain't no time to run around like a marathon

When she don't respond, I take you out to Saint Laurent

So I go away

We live miles apart

We knew this from the start

So I'll go, can't stay

I can't change who you are

You knew this from the start

Fuck love

What's love?

Fuck love

Enough

Fuck love

What's love?

Fuck love

Enough

You told me, fuck love and all your gimmicks, that shit typical

I can see the lies, it ain't surprisin', it be visible

She the only one that stayed down, when it's difficult

We ain't solve the problem, now we flippin' like reciprocals

Told her, "Fuck love", the fuck was I thinkin'?

Day by day, it ain't no communicatin'

I didn't mean to give up when times are frustratin'

I've been doin' me, I got a dream that I've been chasin'

So I go away

We live miles apart

We knew this from the start

So I'll go, can't stay

I can't change who you are

You knew this from the start

Fuck love

What's love?

Fuck love

Enough

Fuck love

What's love?

Fuck love

Enough
