

# Everytime

**Bankroll Fresh**

I done lived it and did it and done it and seen it you feel me  
Go get it keep your head up and just stay focused

Every time you see me I am the freshest  
Every time you see me I come collected  
Cash out at the dealer I swiped the debit  
Cash out at the dealer I ain't need no credit  
Forgiato swervin' watch for pedestrian  
Show you niggas definition of flexin'  
Beatin' so hard hear me getting off the exit  
Thank you God dear Lord you done blessed me  
Live and learn boy I never forget it  
I ain't have to ask a nigga to lend me  
I ain't never ask him for nothin'  
Keep it real nigga sky is the limit  
I done fucked up could have had plenty  
Been the same nigga since the beginning  
Been the same nigga since elementary  
Thank you God good God I'm gonna get it

Every time I open my eyes go outside  
Look in the sky and I thank God I'm alive  
And every time you see me bitch you know I'm shine bright  
We live forever never die

Every time you see me I'm just a player  
Diamonds on a nigga wet as a whale  
Every time you see me I am aware that everybody 'round me ain't as prepared  
Politicin' kickin' pimpin' I'm hell  
I went fishin' and I caught me a whale  
All them fishin' niggas already fail  
Choppa' for the surfin'  
Carbon coppin' some squares  
I never went to college but I got some knowledge  
I can tell you 'bout the block is real  
I caught a body and a bunch of armed robberies  
Way before a nigga had a deal  
Can't trust niggas they'll tell on you  
Go on the move they'll bail on you  
They'll fuck your bitch if she with the shit  
But worse, they'll wish jail on you  
Time on my hand Lord  
Got to get this shit if you want it  
Nigga remember hard time get lonely  
Time on my hand, Lord  
I ain't gonna waste mine I embrace mine  
Keep truckin' like a freight line

Every time I open my eyes go outside  
Look in the sky and I thank God I'm alive  
And every time you see me bitch you know I'm shine bright  
We live forever never die

Scream  
Money worldwide nigga  
One thing about it two things for sure  
Got it first over this way

RIP on the street money strike  
ATPPBG stand the fuck up nigga  
It's time for this  
And that  
Scream  
Scream worldwide  
2015 nigga, the torch is yours, yeah

Every time I open my eyes go outside  
Look in the sky and I thank God I'm alive  
And every time you see me bitch you know I'm shine bright  
We live forever never die
