

Don't Start

Banks Arcade

They sing voices wanna drip till their lips bleed
You don't have to type you can kiss me
You don't have to die for the wrong things

Miss me no one wants to show up when the wars on
No one wants wake up with a cold heart
Look me in the eyes when you die to trying stop your mistake
Don't start

No love
No prisoners
You did your worst
Now stay down
Listen up

They want us giving up
Go do your worst
It's just not good enough

No love
No prisoners
You did your worst
No one forgiving us

They want us giving up
You did your worst
That's just not good enough

I'm your new addiction

Stand up and fix this
You like the way I never listen
We're not the same
Name on the hitlist
I got the shit you'll never get kid

Lust
What I do to get my hands dirty
Trust
I can win without a plan honey
Blood
Leave us singing let me die
I'm in love with the whites of your eyes when the end comes

Love
I don't want it we don't think about it
Trust
Everybody's gotta die for something
What
Did you think that I'd go that quick? stand up and run
Wanna see you when the lights go
Out

No love
No prisoners
You did your worst
Now stay down

Listen up

They want us giving up
God do your worst
It's just not good enough
No love
No prisoners
You did your worst
No one forgiving us

They want us giving up
You did your worst
That's just not good enough
