Hope is denying that we're lost  
Ignorance is bliss until it's not  
We were led to believe this life meant more than you and me  
I'm starting to think that we were wrong  
Fuck  
Every breathe feels like I'm giving up  
The hope we had, was never enough  
Give me the life that I've been dreaming of

I'm afraid, every single time I feel it fades  
Take a look at the mess we made  
How the fuck do we live with the shame  
In this life, we all feel pain  
Is the hope we share all in vain

My eyes are open  
I spoke to God he said he isn't coping  
And through the choking I heard a whisper  
I don't want to live forever  
I just want to live  
Even the best of us doubt our why  
Just give me life, and take my mind  
I'll run the course of time

Show me myself in the future  
I hope its not like the past  
Just like us, we were never meant to last  
At last, I realize I'm not mistaken  
We are lost  
Aimless, misguided  
Broken, Divided  
I am terrified by the fear of going nowhere  
I my see my life flash before my eyes  
And I don't like what I see

This is the sentiment of discontent  
These words we pen so we will never forget  
This is all we have left

I just want to live  
I want it all  
You get what you give  
And I've got nothing, nothing at all

We'll be here to the bitter end
