

# Firework

Banks Arcade

All my friends are wasted  
All my money's gone  
I always do the same shit  
I wait for to you to call

There's always something wrong  
With my head  
I'm irrational distressed  
Scared to death this is it

I spent New Year's Eve alone on a beach  
Getting high and watching lovers  
Like I'm here for fucking nothing  
I burned bright and blew to pieces like a

Firework  
They only love us when we burn  
And you'll never see the best of us  
Keep me silent  
Till I'm spread across the stars

They only love us when we burn

I see all the intentions  
Their drinking off the masks  
You all just want attention  
Without the bitter end  
That I'm living in

Cigarettes and streetlights  
Dancing with the cars  
Fall into the street like  
I've done this shit before  
I'm too far gone  
Too fucked up  
All you ever wanted was for me to fall apart  
Just like a

Firework  
They only love us when we burn  
And you'll never see the best of us  
Keep me silent  
Till I'm spread across the stars

They want us dead it seems  
I can't fix the mess we're in  
I just want to disappear

They just want to see me burn  
You won't ever see the best of us

They just want to see me burn

I burned bright then blew to pieces like a

Firework  
They only love it when we burn

And you'll never see the best of us  
Keep me silent  
Till I'm spread across the stars
