Freaks

Banks Arcade

Don't be afraid
Step into the dark
Don't be afraid
Don't be afraid
Step into the dark
Don't be afraid

The night is full of fucking animals
Psychosomatic cannibals
Looking to find the anecdote
Push it and make it bleed
Hungry for something spiritual
Baby, come and get physical
Drink from the cut, don't spit it
We use it to go to sleep
Sick of running
The night is full of loving
The freaks are out for blood and
We lost everything just to keep 'em coming
Stand for nothing
I think I'm over wanting
We can leave all the pretty pain
We'll dance away the life we never wanted

Don't wanna wake up
Kill the pain, keep the change
We don't talk about it
I know the truth hurts
So stay afraid
And bleed till you get some sympathy

I'm on my last chance
They told me I need to get my head fixed
Everybody's worried I might talk shit
But I look pretty pretty when I'm reckless
So forget it
I left my soul at the bar, I got sick of being used
I'm just over the top, we need something to abuse
You're just cynical
I think I might be on the same page

So step into the dark
Don't be afraid
This could be the start
Let's go away
They tried to change us
I like it better when we fake love

Don't wanna wake up
Kill the pain, keep the change
We don't talk about it
I know the truth hurts
So stay afraid
And bleed till you get some sympathy
Don't wanna wake up
Kill the pain, keep the change
We don't talk about it

I know the truth hurts
So stay afraid
And bleed till you get some sympathy

Sick of running
The night is full of loving
The freaks are out for blood and
We lost everything just to keep 'em coming
Stand for nothing
I think I'm over wanting
We can leave all the pretty pain
We'll dance away the life we never wanted

I know the truth hurts
So stay afraid
And bleed till you get some sympathy

Sick of running
The night is full of loving
