System Failed

Banks Arcade

Catch me in dark
Yeah I'm screaming till my death
Lil lippy sinner yellin' off with they head
But I'm strong for the test
I ain't look gonna look motherfucker
Get that shit up out my face
Goin' off with the tech

We've got it under control
There's no need to be scared
It won't become a habit
We've got it under control
You've got so many friends
There's no need to panic

Stay young and fight yourself 'cause you gotta have it
Pay blood and cut 'em a deal to get a reaction
You can find love if you pay in the right way
Never look up, if you stay you can die safe
Never get enough 'cause the likes don't lie if you try you could buy faith
You could find love if you die in the right way
Keep your eyes up, maybe we can escape

I don't like the way we pray now
Dancing with your head down
Help me pass the blame
Make out, we're not gonna break now
Keep us looking safe for the minute
It's not fake if you're winning

Running out the rest of your lives
Tell me if it's good enough
Think it might be better to die
Tell me when you're giving up

I feel alive again
We're a bunch of fucking animals
Lost my mind again
Caught me feeding off the waste
You can't live without a taste of escape
See the writing on the wall, it's your savior
No one's fucking saved yet
You won't take the blame
But you can't look away

I don't like the way we pray now
Dancing with your head down
Help me pass the blame
Make out, we're not gonna break now
Keep us looking safe for the minute
It's not fake if you're winning
Pray now
Dancing with your head down
Help me pass the blame
Make out, we're not gonna break now
Keep us looking safe for the minute
It's not fake if you're winning
