

Unleavable

Banks

Savor what you made in the middle
Never what you gave when we were solo
And I never wanted nothing but your love

Wherever will you go?
There's no tip-off that I know of
And everything you say is a riddle
Nothing about you gave
Even one thing away
That you wanted to say

I used to like it when you were mean
It made me feel like I was special if you loved me
And I fit right in in between your love and lack thereof what
(Love in love in love)

Say like you're leaving me
For something better
There's nothing better, baby
Say it
You start believing it's over
Act like you're leaving me
Then call me unleavable

I'm used to holding regret in my stomach
I'm used to telling you you'd get it if you want it
But you let me leave
Look at me knowing where to go pretending I don't know
Doors where you left it
Said you'd win if you bet it

So get on up
Something brought you way back
Get on up
Something brought you way back

You teach me how to run since you're leading me on
And I'll teach you something about love
But you already know
I knew it wasn't safe what I was leaning on

I used to like it when you were mean (In the middle)
It made me feel like I was special if you loved me (In the middle)
And I fit right in in between your love and lack thereof what
(Love in love in love)

Say like you're leaving me
For something better
There's nothing better, baby
Say it
You start believing it's over
Act like you're leaving me
Then call me unleavable

You teach me how to run since you're leading me on
(It made me feel like I was special if you loved me)
And I'll teach you something about love

(And I fit right in in between your love and lack thereof what)
But you already know
I knew it wasn't safe what I was leaning on

Love in love in love

Say like you're leaving me
For something better
There's nothing better, baby
Say it
You start believing it's over
Act like you're leaving me
Then call me unleavable

Say like you're leaving me
For something better
There's nothing better, baby

Must be lucky, must be lucky, must be lucky
Must be lucky, must be lucky, must be lucky
Must be lucky, must be lucky, must be lucky
Must be lucky, must be lucky
