

# Back When We Had Nothing

BANNERS

Flags upon the floor  
And on this cold war  
Battle torn  
Soldiers fold  
Lay down your arms  
Losing all control  
And down this rabbit hole  
Lost souls letting go  
But I won't

Down these halls  
These holy walls  
Echoes of light  
Lost in time  
Do you hear me call?

Back when we had nothing  
We never stopped running  
Back when we had nothing  
We had everything  
I feel my blood rushing  
Burning like a glory blaze  
Back when we had nothing  
We had everything

Eyes against the walls  
Won't surrender  
Bullets fly  
Blinding skies  
If we die tonight  
When it all goes up in flames  
We'll fly this hurricane  
We'll wash away like tidal waves  
As it fades

Down these halls  
These holy walls  
Echoes of light  
Lost in time  
Do you hear me call?

Back when we had nothing  
We never stopped running  
Back when we had nothing  
We had everything  
I feel my blood rushing  
Burning like a glory blaze  
Back when we had nothing  
We had everything

We had everything  
Back when we had nothing  
We had everything

Back when we had nothing  
We never stopped running  
Back when we had nothing

We had everything
