

# Broken Hearted

## BANNERS

Look what you started  
Just before noon  
All I was doing  
Was standing in the supermarket  
Now I'm broken hearted

I'm still in pieces  
Just after 2  
Trying to do the dishes still thinking of you  
I was starvin'  
Now I'm broken hearted

I thought that's how it ends  
I went out with my friends  
To a bar  
Get a beer  
Oh my god  
She's here  
Oh my god  
She's here

Some things you know and some things you don't  
But one thing I know is I gotta go up and tell you  
I'm broken hearted

And you don't know me and I don't know you  
And maybe I'm breaking every rule  
Look what you started  
I'm broken hearted  
Broken hearted for you

Don't know what you did  
Yeah I can't explain  
All I can say is that everything's changed  
And I love it  
Being broken hearted

And it's taking me higher, higher  
I'm on fire, fire  
This desire for ya, baby, is breaking my heart in two  
It's true

Some things you know and some things you don't  
But one thing I know is I gotta go up and tell you  
I'm broken hearted

And you don't know me and I don't know you  
And maybe I'm breaking every rule  
Look what you started  
I'm broken hearted  
Broken hearted for you

Don't put me back together  
I wanna be broken in two  
Over you

Some things you know and some things you don't

But one thing I know is I gotta go up and tell you  
I'm broken hearted

And you don't know me and I don't know you  
And maybe I'm breaking every rule  
Look what you started  
I'm broken hearted  
Broken hearted for you
