

# Holy Ground

BANNERS

All we are  
We're distant stars  
Lost in the dark  
I know how to part  
Searching high  
And low for life  
A paradise  
A light in your eyes, ooh ooh

I knew it's you  
It's true

I was standing on holy ground  
So heart don't fail me now  
And even if the walls were falling down  
It will always be us, be us  
This is holy ground

Take my hand  
To the promised land  
We'll cross the sand  
'Til all this fades to black

I knew it's you  
It's true

I was standing on holy ground  
So heart don't fail me now  
And even if the walls were falling down  
It will always be us, be us  
This is holy ground

It will always be us, be us  
This is holy ground  
It will always be us, be us  
This is holy ground  
It will always be us
