

In Your Universe

BANNERS

From the second I saw you I've been falling
In that space between that moment and the ground
My on fire imagination
Your constellation is the only thing I think of now

I felt your light run through me
Now I'm dying to be

Somewhere, somewhere, somewhere
In your universe, in your universe
Just wanna be somewhere, somewhere, somewhere
In your universe, in your universe

Well, I don't need to be your, your star in the centre
I just wanna circle 'round your world from time to time

Oh darling, if I could just hold you
I'd give it all to just know you
Leave it behind in a second
As long as you're there, I don't care

Just wanna be somewhere, somewhere, somewhere
In your universe, in your universe
Just wanna be somewhere, somewhere, somewhere
In your universe, in your universe

I crashed back down and breathing hurts
My heart's a million miles away from earth

In your universe
In your universe

I just want you, just wanna be there
Just want you, just wanna be there
Just wanna be somewhere in your universe

I felt your light run through me
Now I'm dying to be

Somewhere, somewhere, somewhere
In your universe, in your universe
I wanna be somewhere, somewhere, somewhere
In your universe, oh your universe

Oh, I love you in all that you're worth
There's a whole universe in your eyes
Oh, I love you in all that you're worth
There's a whole universe in your eyes
Oh, I love you in all that you're worth
There's a whole universe in your eyes

Just want, just wanna be there
Just want, just wanna be there
Just wanna be somewhere in your universe
