

Keeps Me Going

BANNERS

I'm a mess sometimes
Who knows it better than I do
When I lose my mind
Nothings finds me like you do

You pick me up and pull me out of the darkest places
You always know the perfect words to say

I've been high I've been low when I get lost along this road
There's a voice that calls me home and keeps me going
And if I win or if I lose I will always make it through
Cos I know that I got you to keep me going
You keep me going
(You keep me going)

When I hit the wall you're there right beside me
When the curtain falls and all I feel is empty

You pick up me up and dust me off when I'm on my knees
You always know the perfect words to say

I've been high I've been low when I get lost along this road
There's a voice that calls me home and keeps me going
And if I win or if I lose I will always make it through
Cos I know that I got you to keep me going
You keep me going

You keep me going

When the ground just shakes my bones just ache
And the world stops turning round
When I'm giving up and I'm letting go all the walls come crashing down

I've been high I've been low when I get lost along this road
There's a voice that calls me home and keeps me going
And if I win or if I lose I will always make it through
Cos I know that I got you to keep me going
You keep me going

I've been high I've been low when I get lost along this road
There's a voice that calls me home and keeps me going
And if I win or if I lose I will always make it through
Cos I know that I got you to keep me going
You keep me going

You keep me going
You keep me going
You keep me going...
