

## Light Up

## BANNERS

I can still feel your fingers  
Your words on the tip of my tongue  
We could steal the keys to the kingdom  
We are while we are young  
Take me back to your front door swaying  
Last night at the back of my mind  
I can hear that music playing  
We are, we are

We are holding on, we are holding on  
And we're letting go of darkness

So we light up  
Your body's taking me higher  
I can feel you in my blood like a flood  
Oh, oh, oh  
Come on now light up  
Let's set the night on fire  
I wanna dance these streets to dust  
I've fallen into your beautiful

Last call and the town is singing  
In the shiver of something new  
Heartbeat and the bells are ringing  
They are, they're just for you  
I'm ten feet tall  
Straight to my head, my heart  
My world this rush  
We are, we are

We are holding on, we are holding on  
And we're letting go of darkness

So we light up  
Your body's taking me higher  
I can feel you in my blood like a flood  
Oh, oh, oh  
Come on now light up  
Let's set the night on fire  
I wanna dance these streets to dust  
I've fallen into your beautiful

The song you sing to me  
The morning sound so sweet a careless symphony  
I'm letting go, letting go, oh  
The song you sing to me  
The morning sound so sweet a birdsong symphony  
I'm letting, go letting go

So we light up  
Your body's taking me higher  
I can feel you in my blood like a flood  
Oh, oh, oh  
Come on now light up  
Let's set the night on fire  
I wanna dance these streets to dust  
I've fallen into your beautiful

Oh, oh, oh  
Oh, oh, oh  
I've fallen into your beautiful
