

No One Knows Us

BANNERS

Wish I could kiss you when I wanna
Without all the fear and all the drama
Kill to hold your hand in public
Yeah

I need you closer
Can we go somewhere?
No one knows us
Leave our world behind
We can hold up
In a motel room
In Arizona

Where no one, no one knows us
Where no one, no one knows us
Where no one, no one knows us
Somewhere
Where no one, no one knows us
(No one, no one, no one, no one)

I could try to fight the feeling
Dull it down like sleeping without dreaming
Kill to hold your hand in public
Yeah
I wanna push you up against the wall
Vertical, free fall yeah
Want 'em all to hear me call you baby
I, I know it's never gonna happen
And I've learned to I accept that
I accept that

I need you closer
Can we go somewhere?
No one knows us
Leave our world behind
We can hold up
In a motel room
In Arizona

Where no one, no one knows us (No one, no one, know)
Where no one, no one knows us (No one, no one, know)
Where no one, no one knows us
Somewhere
Where no one, no one knows us

Kill to hold your hand in public
Without all the fear and all the drama

Where no one, no one knows us (No one, no one, know)
Where no one, no one knows us (No one, no one, know)
Where no one, no one knows us
Somewhere (Somewhere)
Where no one, no one knows us
