

# Rule The World

## BANNERS

I know sometimes you get the feeling  
That all the writings on the wall  
And everything you do's conditioned  
To reconcile with your submission  
Sit down and float along

When it all falls apart  
We're cold in the dark  
Just hold me, nothing is lost  
And we'll always know

That we could just rule the world  
And we could just burn every kingdom as it turns  
Put on our crowns of gold it's been hard I know  
Oh darling we could rule the world  
We could just rule the world

Now if I ever feel like falling  
And all my skies have turned to rain  
I remember us my darling  
Though it's hard to hear you calling  
Yeah, stand up and float away

When it all falls apart  
You're cold in the dark  
Remember, nothing is lost and  
And I need you to know

That we could just rule the world  
And we could just burn every kingdom as it turns  
Put on our crowns of gold it's been hard I know  
Oh darling we could rule the world  
We could just, we could just, rule the world  
Oh, woah  
And we could just, rule the world, no, woah

Don't give up my darling  
We could just, rule the world  
Don't give up my darling  
We could just, rule the world  
Don't give up my darling  
Oh don't give up my darling

We could just rule the world  
And we could just burn every kingdom as it turns  
Put on our crowns of gold it's been hard I know  
Oh darling we could rule the world  
We could just, we could just, rule the world
