

# There Goes My Girl

## BANNERS

Queen of the world  
Then the universe  
But you wouldn't know it if you saw  
She acts like the girl that lives next door

She's running the show  
She keeps it way down low  
She doesn't care if no-one knows  
That's why I love her to her bones

She doesn't shout from the rooftops  
She keeps it all inside  
I'm gonna preach to the unconverted  
everybody sees the light

There goes my girl  
There goes my girl  
She's making my day  
In the beautiful way that she does

There goes my girl  
There goes my girl  
And I can't get enough  
I keep falling in love  
With her world  
There goes my girl

Affirmation  
Is just a complication  
She says it's something she don't need  
She knows herself so perfectly

She's the dance in the darkness  
She makes the world go round  
I get a stitch just thinking about her  
Faster than the speed of sound

There goes my girl  
There goes my girl  
She's making my day  
In the beautiful way that she does

There goes my girl  
There goes my girl  
And I can't get enough  
I keep falling in love  
With her world  
There goes my girl

She's got style  
She's a symphony  
She does life so irresistibly  
She won't stop until she's queen of the world  
There goes my girl

She's got style  
She's a symphony

She does life so irresistibly  
She won't stop until she's queen of the world

There goes my girl  
There goes my girl  
She's making my day  
In the beautiful way that she does

There goes my girl  
There goes my girl  
And I can't get enough  
I keep falling in love  
With her world  
There goes my girl
