

Bubble

bAnoffee

Running to a different rhythm
I always knew that we were different
Easy day, but hard to listen
Don't know why I hide it
Call the choir for a new addition
In my head I had another vision
I don't wanna take another hitting
Makes me cry-y-y

I'm someone's baby
It's mine, it's my body
We're someone's babies
Stand with me, cheek to cheek

Are we killing each other?
One shot for another
I give in, put my hands up
One, two, three, it's a stand up
And we dance in the rubble
I told you we were trouble
Can you hear it, the heartbeat?
Are we making you bubble?
Pop!

I wonder why you couldn't see me
Did that just make me unappealing?
What I would give to feel the feeling
That banding of bodies
Am I human or some other being?
Keeping quiet 'cause I'm barely breathing
'Cause you always make me feel strange
Like petrol in the rain

I'm someone's baby
It's mine, it's my body (It's my body)
We're someone's babies
Stand with me, cheek to cheek
(Cheek to cheek, cheek to cheek)

Are we killing each other?
One shot for another
I give in, put my hands up
One, two, three, it's a stand up
And we dance in the rubble
I told you we were trouble
Can you hear it, the heartbeat?
Are we making you bubble?
Pop!

Are we killing each other?
One shot for another
I give in, put my hands up
One, two, three, it's a stand up
And we dance in the rubble
I told you we were trouble
Can you hear it, the heartbeat?
Are we making you bubble?
