

Contagious

bAnoffee

Don't give up
Don't give up on us
Don't give up
Don't give up on us
I'll show you, I'll show you
Don't give up on us
Don't give up, don't give up
Don't give up on us
I'll show you, I'll show you
Don't give up on us
Don't give up, don't give up
Don't give up on us

Walking alone
It's like a new thing
A new thing
(Don't give up)
'Cause I've loved you one hundred years
And I've walked beside you
(I'll show you, don't give up)

Walking alone
Is excruciating
Every car I see
Is a white Mitsubishi
And every face in it is yours

If you want space, I'll
Give you all I've got
Think I'm contagious
With something you don't want

I don't wanna stay
'Cause I'll turn it all to rot
From the look on your face
You don't really wanna do this

We always talked
Everything through
Every hurt you had, I had too
Now I'm looking at my phone
Hoping you will call
Asking me to come home
But you don't

Every car I see
Is still a white Mitsubishi
I wanna say I miss you
But I won't

If you want space, I'll
Give you all I've got
Think I'm contagious
With something you don't want

I don't wanna stay
'Cause I'll turn it all to rot

From the look on your face
You don't really wanna do this

If you want space, I'll
Give you all I've got
Think I'm contagious
With something you don't want

And I don't wanna stay
I know that I'll
Turn it all to rot
From the look on your face
You don't really wanna do this

I'll show you
Don't give up on us
Don't give up, don't give up
Don't give up on us
Don't give up
Don't give up on us
I'll show you
Don't give up on us
Don't give up
Don't give up on us
I'll show you

If you want space, I'll
Give you all I've got
Think I'm contagious
With something you don't want
And I don't wanna stay
I know that I'll
Turn it all to rot
From the look on your face
You don't really wanna do this
You don't really wanna do this
