

Count on You

bAnoffee

I'll sit here 'till the lights go down
You can fall asleep
I'll sit here 'till the breaks go on
In your head and body

You feel safe when you're with me
I won't let nobody in
You know you
And you know me
I see you are where you wanna be
Energy so fizzy
I know I'm so lucky

I can count on you now, I know
I can count on you now, I know
You now, I know
I can count on you now, I know
You now, I know
I can count on you now, I know
You now, I know
I can count on you now
I know I can count on you

We can weep 'till the salt runs dry
Crystals on our cheeks
Make a cocktail from the tears you cry
Raise our glass and drink

'Cause we are safe and we are free
No one touching our bodies
We can learn to breathe with ease
Even when they're around
'Cause I know I'd be nobody
Without all the things I've seen
We can turn the tears to tea

You can count on me now, you know
You can count on me now, you know
Me now, you know
You can on me now, you know
Me now, you know
You can count on me now, you know
Me now, you know
You can count on me now
You know I can count on you

Nah, nah, nah, nah
Nah, nah, nah, nah
Nah, nah, nah, nah
Nah-nah, nah-nah
You can on me now, you know
You can count on me now, you know
Me now you know
You can count on me now, you know

I can count on you now, I know
I can count on you now, I know

You now, I know
I can count on you now
I know I can count on you
You can count on me
I can count on you
You can count on me
I can count on you
