

Fall Fast

bAnoffee

In the autumn
You make the leaves fall fast
Dust goes orange
When we drive drive
Two bodies in sync like this
You know I'd never let you go too far

And in the winter
Heated glass
We watch TV
Make the weather last
The shivering of them
Under the covers
We're better lovers and

Can we make it can we
Can we make it can we
Can we make it can we
Can we make it can we
Can we make it can we
Can we make it can we
Can we make it can we
Can we make it can we

Can we make it?
Yes, we can have it all
You sit in the front seat and I'll sit next to you
We can have distance
You can go so far
No other can shake us
No, nothing will break us
Yeah that's how we do it
Yeah that's how it is
I know what you know

Strengthen with each blow

Can we make it can we
Can we make it can we
Can we make it can we
Can we make it can we
Can we make it can we
Can we make it can we
Can we make it can we
Can we make it can we

Can we make it?
Yes, we can have it all
You sit in the front seat, I'll sit next to you
And direct
I'll direct
You can drive
I'll direct
I'll direct
I'll direct
You can drive

I'd wage a war for you
I'd break a smile for you
Cause we're too of little few
And love more than lovers do
I'd break your heart in two
For breaking my own it's true
Then I'd wage a war for you
This is for you
Whoever marries you
Will be committing to two
No I'm never letting you go
No you're too good
Too good

You can drive
I'll direct
Can we make it?
Yes, we can have it all
You sit in the front seat and I'll sit next to you
And direct

Don't you know

If you hold me too close
I'll never let you go
