

One Night Stand

bAnoffee

You said I could have it
So I came on over
But you didn't mean it
And now I'm sitting sober

You say I'm an addict
Like I didn't know it
If you are the habit
I'm happy to have it

But when you lie you lie,
And don't admit it
And I try I try
To catch you at it and I'm
Too nice too nice
You don't deserve it
Guess it's a habit
Guess I'm an addict

You should have been a one night stand
But now you're a habit
I should have never called you again
This wouldn't have happened
You should have been a one night stand
But now you're a habit
I should have never called you again
Now I'm relapsing

Is it masochistic?
Cause I know that you're trouble
When I call you obey me
Yeah you be here on the double
I used to get wings in my stomach
But I'm getting bolder
When we met you were timid
And now you love when I choke ya
Showed you the ropes yeah

You lie you lie
And don't admit it
And I try I try
To catch you at it and I'm
Too nice too nice
You don't deserve it
Guess its a habit
Guess I'm an addict

You should have been a one night stand
But now you're a habit
I should have never called you again
This wouldn't have happened
You should have been a one night stand
But now you're a habit
I should have never called you again
Now I'm relapsing

This wouldn't have happened

(Look what you've done)
But you're a habit
This wouldn't have happened
You should have been a one night stand
This wouldn't have happened
But now you're a habit
You have been a one night -
Oh this wouldn't have happened

You should have been a one night stand
I should have never called you again
This wouldn't have happened
You should have been a one night stand
But now you're a habit
I should have never called you again

You should have been a one night stand
(Look what you've done)
But now you're a habit
I should have never called you again
(Look what you've done)
This wouldn't have happened
You should have been a one night stand
But now you're a habit
I should have never called you again
But now I'm relapsing
