

Ripe

bAnoffe

You're up so high, you're playing my vibe
No casting your light, no casting your light
Held you up so high, you're playing my vibe
No casting your light, no casting your light
Fucking with the light, I can't make that vibe
You're so overripe, tryna steal my shine
Fuck your oversights, held you up so high
No casting your light, timing isn't right

You call me, I'm busy
So needy, I'd rather sleep in late
You're so overripe
You're so clean, I'm dirty
Can't tame me, I'd rather sleep in late
You're so overripe

Gaslight in the dark, I see what you are
I can see so far
A battery, I'm energy
Energy is not just to give you charge
You ride in the dark
A battery, you're draining me
You're so draining

Fucking with the light, I can't make that vibe
No casting your light, no casting your light
Strap me in so tight, tryna read my mind
Stop casting your light, no casting your light
You're wound up too tight, tryna steal my shine
You're so overripe, no casting your light
Held you up so high, you're playing my vibe
No casting your light, no casting your-

Gaslight in the dark, I see what you are
I can see so far
A battery, I'm energy
Energy is not just to give you charge
You ride in the dark
A battery, you're draining me
You're so draining

He ain't shit from the get go
But I'm tryna get mo
You know how this shit go
IPhone lit though, came from a flip phone
Money come, then it get gone
Love me for me
Time to get free
We are not we if we cannot agree
This [?] on a lame nigga, capital T

I brain, drain from the pain
Came from the streets where they gang, bang
Taking handouts is not my thing
Bitch you bein' so broke, can't afford a frame
Let's get it

You call me, I'm busy
So needy, I'd rather sleep in late
You're so overripe
You're so clean, I'm dirty
Can't tame me, I'd rather sleep in late
You're so overripe

Gaslight in the dark, I see what you are
I can see so far (Held you up so high)
A battery, I'm energy (You're playing my vibe)
Energy is not just to give you charge
You ride in the dark (Fuck your oversights)
A battery, you're draining me (No casting your light)
Energy is not just to give you charge
You ride in the dark (No casting your light)
A battery, you're draining me
You're so overripe
