

Tears

bAnoffee

I'll hold your hand
If you can't stand
And I'll be your breath
When it gets busy in that head
And I ran my mouth
I'm working it out
We both know it
I'll leave you alone
If it's what you truly want

But I'm always here
Here
Here
Here

I'll hold the bag
When you jab at it
And I'll buck you up
When you feel like you don't fit
I was a bitch
I can be cruel
We both know it
I'll leave you alone
If it's what you truly want

I'm always here
Here
Here
Here

I'm always here
Here
Here
Here

You'll always be my best friend
We are for keeps
We are for keeps
I don't wanna make it harder
I wanna see
I wanna see
You smile like you used to
That was the best
That was the best
Don't wanna have a love burst with anyone else

You'll always be my best friend
We are for keeps
We are for keeps
I don't wanna hold you back now
I wanna see
I wanna see
You thrive like you used to
That was the best
That was the best
Don't wanna watch comedy with anyone else

You'll always be my best friend
We are for keeps
We are for keeps
I don't wanna make it harder
I wanna see
I wanna see
You smile like you used to
That was the best
That was the best
Don't wanna have a love burst with anyone else

You'll always be my best friend
We are for keeps
We are for keeps
I don't wanna make it harder
I wanna see
I wanna see
You smile like you used to
That was the best
That was the best
Don't wanna have a love burst with anyone else

You'll always be my best friend
We are for keeps
We are for keeps
I don't wanna make it harder
I wanna see
I wanna see
You smile like you used to
That was the best
That was the best
Don't wanna have a love burst with anyone else

You'll always be my best friend
I wanna see you smile like you used to
You'll always be my best friend
I wanna see you smile like you used to
