

# This Is for Me

bAnoffee

So many edits, I feel I read it  
I just drank a gator-ade  
Your baby blue was in my [?]  
Do you remember when I asked you  
If you could help me find the exit  
You smiled and pointed to yourself  
But now I've got it, I don't need your help

Every song's about you  
Every song is for-  
Every song's about you  
Every song is for-  
This is for  
Every, every song  
Every, every song

Every song's about you  
Every song is for-  
Every song's about you  
Every song is for-  
This is for  
Every, every song  
Every, every song  
This is for me  
This is for me

I am feeling healthy

I am feeling so good  
I'm doing all the things I should  
'Cause I'm looking fine  
I'm fine  
'Cause I'm looking fine

Every song's about you  
Every song is for-  
Every song's about you  
Every song is for-  
This is for  
Every, every song  
Every, every song  
This is for me  
This is for me

Every song's about you  
Every song is for-  
Every song's about you  
Every song is for-  
This is for  
Every, every song  
Every, every song  
This is for-  
I already know it  
I already know it  
This is for me
