

BANSHEE HOLLOW

Banshee

Find me in the forest
Rollin up some fairy blunts
Fly away from planet earth
I know a better spot in banshee hollow

I'm so fucking bored all of the time
Forgive me but
I found some fairy flowers
Ima burn til my lungs don't work at all

Never gave a fuck who doesn't like me
Or if they want me dead
I don't live for them
I don't do this for anyone but me

I don't care if I am not what they expected
If I wasn't too much for them
I might never be enough for me

Even if it takes my whole entire life I'll be ok
It might take some time
They used me up and left me hollow

I admit that sometimes I feel like they're still inside my mind
So I started my own planet where no one can find me

Find me in the forest
Rollin up some fairy blunts
Fly away from planet earth
I know a better spot in banshee hollow

I feel like I'm in a painting
The sky looks so angelic
I never wanna leave here
And I think I'm never gonna go home
